What these

figures mean

Analysis of our gender pay gap

Our mean gender pay gap is 6.0%, which is significantly lower than the industry average.

Our median rate is at **26.3%**, higher than average, mainly as a result of having more female employees within the lower quartiles of pay, especially the secretary population which makes up circa 10% of our workforce.

Employee pay at Bristows

The majority of our legal staff are paid according to bands which are set with reference to years of post-qualified experience. This ensures that rates are equalised across each level.

Our Business Services staff salaries are calculated with reference to a combination of industry benchmarks and performance.

Analysis of our gender bonus gap

We operate an annual bonus system based on the previous year's financial performance which applies an equal percentage across all staff.

30.3%

The **median** gender bonus gap

The higher presence of women in business services roles in the lower quartile of pay explains the median bonus gap, in addition to the fact that bonuses are pro-rated for part time staff, 93% of whom are women.

Our gender picture

The table below shows the distribution of women and men by fee-earner level across the firm. The data shows a strong pipeline of women at the senior level, as **69%** of Senior Associates and **38%** of Of Counsel are women.

We recognise that women are currently underrepresented in the partnership, however much work has been done and continues to be done to ensure a balanced partner promotion pipeline. Six out of seven of our most recent promotions to partnership have been women.

Figures from our Senior Associate promotion process are encouraging as, since 2020, 15 out of 23 promotions have been female associates.

Partner pay gap

The nature of a LLP means that partners receive a share of profit rather than a salary and are excluded from the statutory pay gap reporting requirements. However, we report these figures below to show the full story of our firm and to be as transparent as possible.

13.2%

The **mean** gender pay gap

The **median** gender pay gap

Bristows is a full equity partnership and we use a pure lockstep remuneration system. Our partners share the profits of the firm equally according to a points system based on how many years they have been a partner, with the highest level after ten or more years.

Our pay gap figures above reflect the fact that we currently have fewer female partners at the top of the lockstep. We are pleased to note, however, that the gap is smaller – and in some instances negative – at the more junior end of our partnership.

Our ongoing efforts to promote female partners is going well, with 3 out of 3 females promoted in our latest round. We currently have a healthy pipeline of female Senior Associates on the partnership track. We are confident this will start to have an impact on the partner pay gap numbers in the coming years.

How we promote

gender equality

At firm and individual level we do all we can to treat all people fairly and with respect, whether they are colleagues, clients, or suppliers. This pledge enriches our work and our working lives, and we absolutely believe it has played a key part in our success over the years.

We are committed to ensuring that no one at the firm is treated less favourably because of their gender. We recognise the challenges that the legal sector faces in improving gender diversity and the retention of women in the legal sector.

Amongst our lawyers, much work has been done and continues to be done to maintain gender balance. By way of example, we have a very strong pipeline of senior women to be promoted to the partnership over the next 24 months.

We know there is more to do in terms of gender equity and we are committed to ensuring that our successes to date are a springboard to greater progress in this area.

Current initiatives designed to assist us in addressing issues of gender imbalance both within our own firm and more widely include:

- Appointed a dedicated Diversity, Equality and Inclusion (DE&I) Manager, to lead the development and implementation of the firm's DE&I strategy
- Have policies and benefits focussed on female health (menopause, fertility, pregnancy loss and domestic abuse) as well as a remote working policy, which enables a greater work life balance

- Launched Menopause training in partnership with Lauren Chiren of Women of a Certain Age:
 - For Managers to help them recognise potential signs, support and signpost and enable conversations around this topic

- A new Carers Support Policy. The aim is to support those with caring responsibilities, so they can maintain a healthy life work balance and to open up discussions and direct employees to available support. This policy works in parallel with our Working Families and Carers Network
- A thriving Women's Network, sponsored by two partners, which works to raise awareness of gender equality through educational and social activities
